Position summary

A key recommendation of the Royal Commission was to establish a network of Support and Safety Hubs across Victoria to provide a new way for women, children and young people experiencing family violence, and families who need assistance with the care and wellbeing of children to access the services they need to be safe and supported. These Hubs are known as The Orange Door.

The Orange Door brings together different workforces and practices to create an integrated Orange Door team and a consolidated intake point in each Orange Door area to create a new way of support for:

- Women, children, young people and families experiencing family violence;
- Perpetrators of family violence;
- Families in need of support with the care, development and well-being of infants, children and young people.

The Orange Door teams includes a mix of staff employed by Family Safety Victoria and staff employed by Community Service Organisations, Aboriginal services and DFFH.

The Men's Practitioner will work collaboratively within multi-agency teams to collaboratively assess risk and act as a first point of contact for clients seeking support. The Men's Practitioner will engage with men who are using family violence to invite accountability and change, along with linking clients into ongoing supports relevant to risk. Our Men's Practitioners play an important role in initial engagement with men who use family violence.
